The following books were helpful in my research:

Yuval Hariri. "Sapiens" (2018)

Wendell Berry. "The world-ending fire: the essential Wendell Berry" (2018)

Michael W. Fox. "Beyond evolution: the genetically altered future of plants, animals the earth...and humans" (1999)

I found that the Wall Street Journal and NPR were good sources:

Articles from the Wall Street Journal and the Raleigh News & Observer

The writings and columns of Senators Chuck Grassley (Iowa) and Michael Bennet (Colorado) were very helpful.
